

# Faculty Showcase '05: Partners in Learning

Sponsored by Academic Technology at Simmons College

Live, Learn, and Lead in the Digital Realm

## CAS FIT Task Force

**Bruce Tis (Chair)**

Don Basch

Braddlee

Eduardo Febles

Cathy Hurst

Rebecca Koeniger-Donohue

Gail Matthews-DeNatale

Gary Oakes

Vivienne Piroli

Esther Shilcrat

Sue Stafford

Len Soltzberg

## Goals for Fluency in Information Technology at Simmons *College of Arts & Sciences*

### Interpersonal

- Communicate and collaborate effectively using technology in many different settings
- Recognize and accurately interpret the style, voice, and perspective of others in digital contexts
- Make astute decisions regarding style, voice, and perspective when communicating in digital contexts

### Personal

- Use technology in a thoughtful, proficient, and self-confident manner
- Evaluate, procure, install, and configure technology
- Use technology to evaluate and interpret text, numbers and images
- Think critically, solve problems, and test solutions (with and about technology)
- Troubleshoot technology
- Think about information technology abstractly
- Understand the value of keeping current on technological developments

### Professional

- Communicate effectively in the workplace using technology
- Understand the role and function of information and technology in the workplace
- Use technology to solve problems in the workplace
- Use technology responsibly in the workplace
- Work collaboratively across geographic distances
- Think in terms of systems

### Societal

- Keep current on technological developments
- Evaluate and assess emerging technological developments (e.g., feasibility, social impact, ethical ramifications, legal implications, etc.)
- Understand and evaluate the opportunities, threats, limitations, and impact associated with emerging technologies
- When deemed appropriate, be prepared to serve as an advocate for change in relationship to technology (e.g., inclusion, legal and ethical reform)
